EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with **Mr. Thomas Krul, Reg. No. 46, 842 on April 14, 2004.**

The application has been amended as follows:

Claim 35 has been cancelled.

2. The following is an examiner's statement of reasons for allowance:

The arguments presented in the Appeal Brief filed on 10/02/03 have been found persuasive, therefore previous rejection of claims 1-4, 6, 19, 21, 22, and 24-26 hereby withdrawn.

The allowability resides in the overall structure of the device as recited in independent claims of record.

Particularly, regarding independent claims 1 and 19, claim 1 recites: "first zone including at least an ON/OFF switch", "second zone", and "a voltage selector switch", and claim 19 recites: "first zone including at least an ON/OFF switch", "second zone", and "a switch...for selecting for use one or other of said first and second electrical outlets".

Art Unit: 2835

The aforementioned limitations in combination with all remaining limitations of the respective claims are believed to render claims 1, 19 and all claims depending thereon patentable over the art of record.

The reasons for allowance of the remaining pending claims of record have been presented earlier in paragraph 5 of the Final Office Action.

3. Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
